

## Services Provided at Halstead Hospital December 2022

### Under the remit of Mid & South Essex Integrated Care System & PROVIDE

#### Ward Block

The 20-bed Ward at the top of the Halstead Hospital site **reopened early December 2022, and is currently full**. This action has helped the General Hospitals free-up some of their beds, in this period of high demand. However, the opening of the ward will initially be up to and including 31st March 2023, with the future still uncertain.

#### Rehabilitation Unit

The Rehabilitation Unit (at the centre of the site) provides Out-Patient services.

Clinics include:

- Cardiac Rehabilitation
- Children's Clinics\*, including Physiotherapy (Wednesdays)
  - \*the Speech & Language Therapy Clinic has recently moved to Manor Street development in Braintree
- Chronic Obstructive Pulmonary Disease (COPD) Clinic, for sufferers with breathing difficulties
- Lymphatic Drainage - held once a month for Cancer patients and arms/legs treatment
- Occupational Therapy
- Phlebotomy (Monday - Friday)
- Physiotherapy

The Gymnasium Area

The Nancy Salmon Room here is a Minor Operations facility.

---

### Under the remit of East Suffolk & North Essex NHS Foundation Trust (ESNEFT)

The older building fronting Hedingham Road in Halstead provides Out Patient services, especially for patients discharged from Colchester Hospital that live in the Halstead area.

Here the following services are delivered for :

- Abdominal Aortic Aneurism Screening (once or twice a month)
- Attention Deficit/Hyperactivity Disorder (ADHD)
- Children - comprising of Community Paediatrics & General Children Paediatrics, and Neurology
- Orthotics
- Rheumatology
- Thoracic

No Ear, Nose & Throat (ENT) treatments are available here, with a Primary Care Centre now able to provide the technical equipment required to deliver this service

Community Midwives are in the building most days and at weekends. They support the Mother before and after pregnancy, and hold various Parenting and Ante Natal Clinics here. There is no Scanning Facility here .

The X-Ray section here is now empty, with X-Rays being covered by Colchester.
